DETAILED ACTION

Response to Arguments

1. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Davis et al. (US2003/0125754). Davis et al. disclose all the limitations of the claims except for a presence of a control interface. It is well known in the art to have a control interface on a handle portion in order to control the drive assembly. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to employ a control interface on a handle portion in order to enhance convenience for user.

Support for the well-known statement: Azerad et al. (2004/0091845), Gass et al. (6,834,730), Blaustein et al. (6,836,917), Aiyar (5,471,695) disclose power hand held tools with a control interface on a handle portion.
